Tiger Snow Panther

Patent Pending

Convert your Tiger into a powerful Snow Panther!

You can now convert your Tiger Boom Mower into a versatile and powerful snow-moving machine.

The Tiger Snow Panther goes places ordinary snow blowers can't. Its innovative patent pending design allows you to reach snow where front or rear mounted blowers can't. It also can help you remove dangerous snow piles from guardrails, roadsides, corners, sidewalks and fire hydrants.

You can count on the Tiger Snow Panther for dependable snow removal all winter long. And with the support and expertise of your certified Tiger Dealer just a phone call away, if problems should arise you'll always have the genuine Tiger parts to keep your Snow Panther on the prowl.

Excessive snow along city streets can cause dangerous safety hazards. In this picture snow is completely covering a fire hydrant.

The Snow Panther is effective in removing snow in hard to reach places.

The Snow Panther easily maneuvers around the fire hydrant.

Snow piles along guard rails and road sides can lead to dangerous drifting into traffic lanes.

Snow Panther easily eliminates windrows of snow and widens driving lanes.

The Snow Panther's versatile hydraulic arm makes fast work of snow piles on either side of guard rail.

The fire hazard has been eliminated in minutes by the efficient Snow Panther.

The Snow Panther eliminates the problem in minutes and quickly moves ahead to the next job.

Tiger Snow Panther Specs
